COLUMBIA PREDATOR NEW LAUNCH

THE FAMILY IS EXPANDING

Columbia was the first to introduce Carbon Fiber into the Taping Tool market with the Predator Automatic Taper in 2018. We are proud to introduce new additions to the Predator family. These tools are handmade from Carbon Fiber which makes them significantly lighter, stronger & dent proof while remaining warm to the touch.

Item No.	Description
PHMP	Predator Mud Pump
PCLT42	Predator Camlock Tube 42"
PCMT42	Predator Compound Tube 42"
PC1HEXT	Predator Extendable 3'-5'

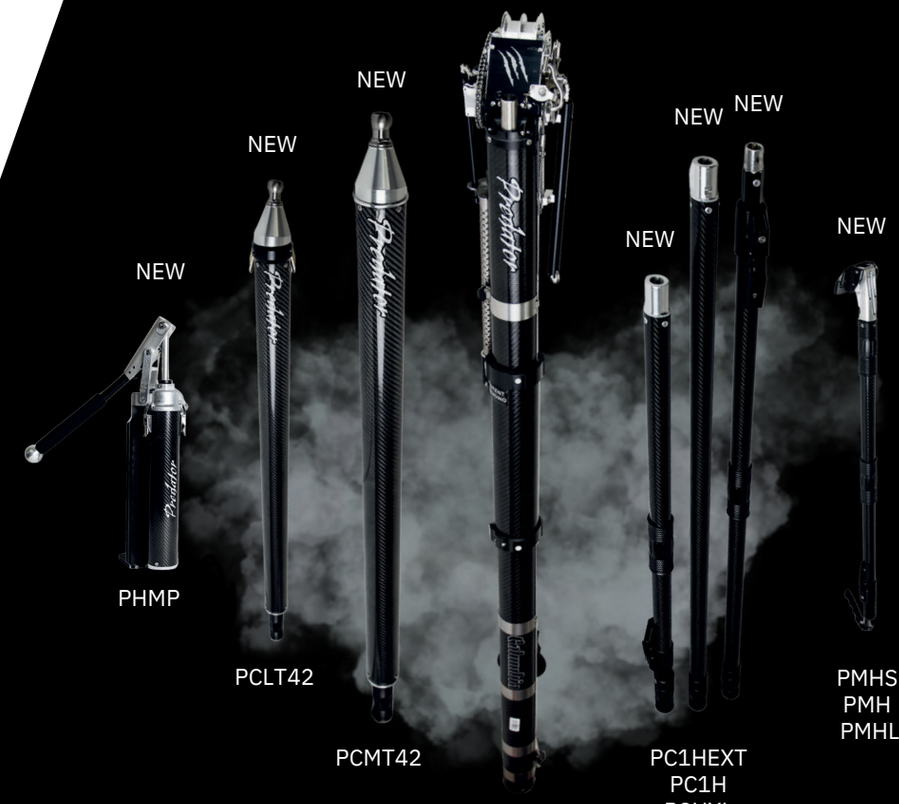
PMHS	Predator Matrix Handle Short 29"-39"
PMH	Predator Matrix Handle 40"-60"
PMHL	Predator Matrix Handle Long 56" -76"

Predator



CARBON FIBER

- Handmade from Carbon Fiber
- Significantly lighter
- Dent proof/high stiffness and strength
- Stable temperature and remains warm to the touch
- Additional grip compared to aluminium

COLUMBIA FAMILY OF SETS

Our new family of tool sets makes it easy to move from hand taping to semi-automatic tools, or even fully automatic tools. These sets take the guess work out of purchasing what you need to completely finish a job.

Each set comes complete with a Columbia case to protect and store your investment, all while making it easy to travel from worksite to worksite. Columbia Sets are another way we are making taping tools easy.

AUTOMATIC TAPER

We have been perfecting our Automatic Taper for over 30 years. The results of our superior engineering, craftsmanship, and service are proven daily among the world's top commercial and residential drywall contractors. Our Taper has been specifically designed to run at peak performance in the most demanding commercial environments where daily punishment and abuse are run of the mill. When you are tired of compromising, step into a Columbia Taper.

Predator

Our Carbon Fiber Predator Automatic Taper is one of the latest innovations out of the Columbia workshop. The first carbon fiber taper on the market, the Predator is also the lightest and most durable. We are proud to offer our customers the next generation in top notch drywall taping tools.

Item No.	Description
TAPER	Columbia Automatic Taper (53" length)
PTAPER	Columbia Predator (Carbon Fiber) (53" length)
STAPER	Columbia Sawed Off Taper (39"length)
SPTAPER	Columbia Predator Sawed Off (Carbon Fiber) (39" length)

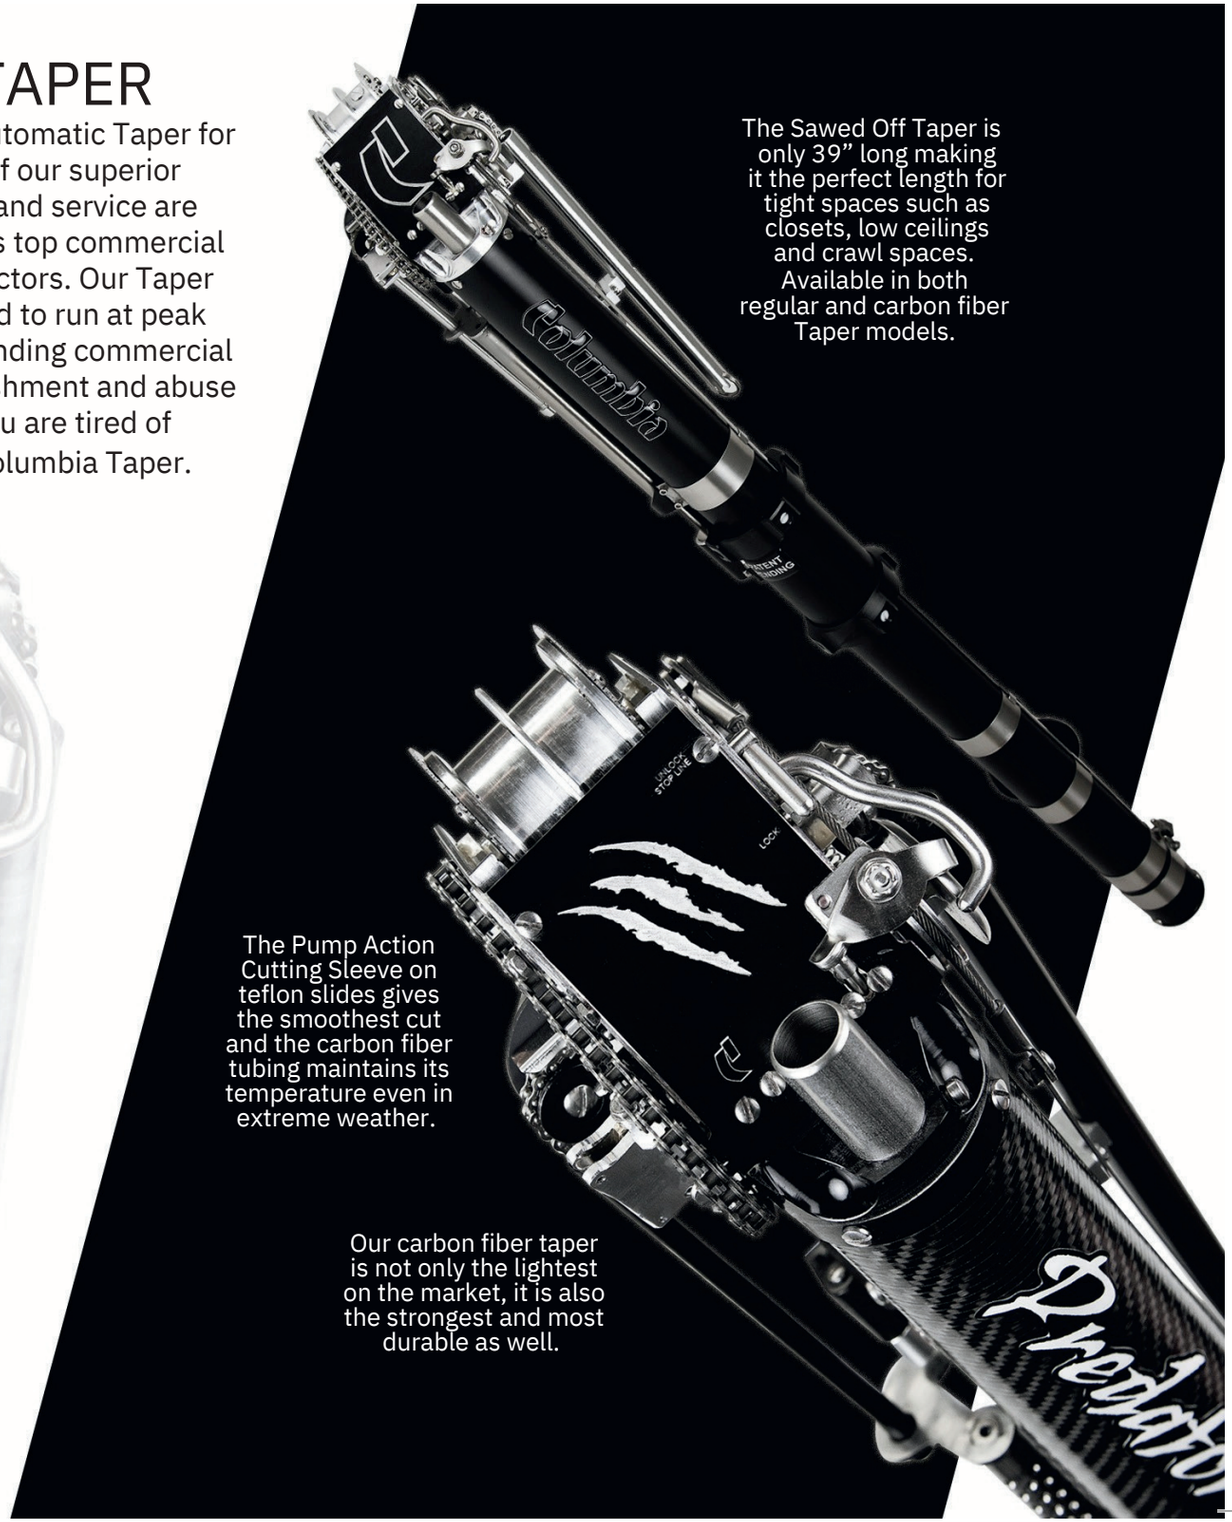
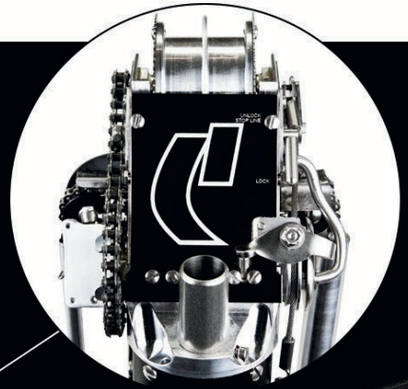
@columbiatools

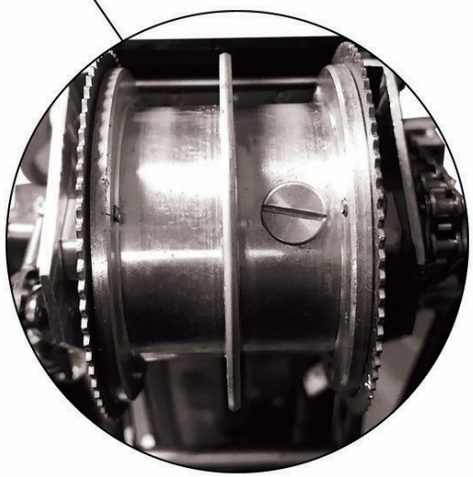




With the Cam Lock Cap, quick release removal makes cleaning the head and changing the cables fast and easy.

The Pump Action Sleeve gives you the smoothest cut on the market. This adjustable sleeve runs on teflon wheels to offer a low friction glide.

We have designed an ergonomic trigger for the creaser wheel to create an ease of use.



Buttons in the drum prevent mud from entering the head.

We have added a brake on the taper wheel to prevent your tape from running too quickly.

CORNER ROLLERS

Manufactured with a die-cast head and hardened stainless steel top rollers for long lasting angle work, no other roller can match it. These rollers are used after the Taper, on 90° internal angle joints on walls and ceilings to embed the tape into angles in preparation for the Angle Heads and Flushers. The Columbia Corner Roller features split hardened steel/Delrin wheels designed to reduce drag on tape and overall tool weight.

SCAN ME

CORNER COBRA

The Corner Cobra is an amazing time saving tool. It allows the user to roll out No-Coat™ and other structural corner beads at almost all inside and outside angles.

We have heard back from users that it does it quicker and better, which to us, is a home run. Another one of our patented products that is changing the time it takes to finish a job.

ANGLE HEADS

Columbia Angle Heads are the best money can buy! They professionally finish angles with the correct consistency of compound and the proper feathering of edges. Precision machined billet aluminum head and durable stainless steel wings ensure longer wear and performance.
Angle Heads are used in 90° internal angle joints after the Corner Roller to evenly feather compound over tape. All Angle Heads come with wheels.

Item No.	Description
2AH	2” Angle Head
2.5AH	2.5” Angle Head
3AH	3” Angle Head
3.5AH	3.5” Angle Head
AHA	Angle Head Adapter

THROTTLEBOX

The Throttle Box is another great product of ours that offers years of great performance. All billet construction with a threaded stainless steel ball, this Corner Box looks and operates seamlessly. All our Corner Boxes now come standard with automatic capabilities, making pushing the box at least 50% easier than standard boxes. The new springs have adjustable tensions and greatly reduce the occurence of air pockets while running. The Throttle Box allows the corners to be quickly coated with your choice of angle head or applicator head. *Patent Pending

Billet handle mount will not crack under pressure like cast.

Solid stainless steel valve for lifetime usage. Will not leak like other welded thin wall designs.

50% easier to push!

Thumb release door stop for quick clean.

FLAT FINISHER BOX

This is one tough tool. Our flat boxes are considered by many as the best on the market; they are designed to perform day in and day out to finish your job smoothly and evenly.

Item No.	Description
5.5FFB	5.5” Flat Finisher Box
7FFB	7” Flat Finisher Box
8FFB	8“ Flat Finisher Box
10FFB	10” Flat Finisher Box
12FFB	12“ Flat Finisher Box
14 FFB	14” Flat Finisher Box

The bead wheel axel will allow our users to run their Columbia Flat Boxes on the bead without wearing down the axel. Comes standard on all flat boxes.

Hinged door system allows you to remove springs eliminating back pressure and keeping the door against the mud at all times.

FAT BOY FLAT BOXES

Need a larger, stronger box with greater mud capacity for loading flats and butts? We are proud to meet your needs with our Fat Boy Boxes. Available in 8”, 10” and 12” sizes, these boxes really go the extra mile. Fat Boys hold approximately 40% more compound than standard boxes, saving you many trips to the pump.

Item No.	Description

AUTOMATIC FLAT BOXES

The Automatic Flat Boxes reduce the need to push the compound on to the wall. By engaging, the box springs put pressure on the compound chamber requiring only a light push to operate the box. Well-built and fine-tuned to offer great flat joints for years.

Item No.	Description
8FFBA	8” Automatic Flat Box
10FFBA	10” Automatic Flat Box
12FFBA	12” Automatic Flat Box
14FFBA	14” Automatic Flat Box
8FBBA	8” Automatic Fat Boy Box
10FBBA	10” Automatic Fat Boy Box
12FBBA	12” Automatic Fat Boy Box Inside
ITC-K	Track Conversion Kit

INSIDE TRACK KIT

Use this kit to convert any box (with the exception of automatic boxes) from a regular axel box to an inside track box.
The main advantage of having wheels inside the side plate is in running butt joints and navigating obstacles such as potlights and door jams.
The key is having the wheels inside the coating path of the box blade.

NAIL SPOTTERS

Our Nail Spotter has an extremely light weight and durable design. It's hinged door allows for easy access and cleaning, and the adjustable thumb tension screw allows for quick and easy adjustment of pivot tension.

MUD PUMPS

Our Mud Pumps are built to exacting air-tight standards making them the easiest pump to prime. They're fabricated with an anodized aluminum cylinder, durable stainless steel shaft, a precision machined cast aluminum head and a tough solid billet aluminum leg.

The Tallboy is a mud pump that will allow you to stand upright while filling your tools. The extra height also allows for use in a 30 gallon pale for those who want to cut down on mixing time. Erogonomically superior, this pump saves the user physical stress and energy.

Item No.	Description

Tomahawk

SMOOTHING BLADES

Made of strong billet aluminum, the Columbia Tomahawk Smoothing Blades have no plastic parts that will break or crack under the heavy weight of the larger blades. This makes the Tomahawk blades the strongest and most durable on the market today.

The blades are replaceable and can be switched out if needed. The Tomahawk blades are compatible with all flat box handles or use the Tomalock adapter (CLTHA) that fits the Columbia One handles, as well as the Twist Lock handle.

*Available in 9 different sizes

The CLTHA fits on the Columbia One or the Twist Lock handles.

FLAT BOX HANDLES

THE MATRIX

The Columbia Matrix Flat Box Handle is light-weight and all mechanical.
With a 90 degree comfort grip, the Matrix gives you increased control over your box. These handles are durable and extremely long lasting, all while maintaining the comfort and ease of use that you're used to with the Columbia brand of tools.
The Columbia Matrix mechanical flat box handle is made of all billet aluminum, ensuring a long life.

Item No.	Description

MH	Matrix Flat Box Handle 40-60"
MHS	Matrix Flat Box Handle 29-39"
MHL	Matrix Flat Box Handle 56-76"

Closet Monster - perfect for small spaces.

180° Grip Flat Box Handles allow for continuous braking over the entire range of motion - a complete 180 degrees. This ensures that you never lose your grip when adjusting your position. Extra strong aluminum design for years of rugged use.

SEMI AUTOMATIC TAPER

The Semi-Automatic Taper or “Bucket Taper” allows users to apply a specific amount of compound to a large volume of tape. It has a tape spool with brake to cut down on operator fatigue. Columbia’s Semi Automatic Taper is easy to use, durable and has laser engraved instruction on the door.

COMPOUND TUBES

Built to last, and hands down the smoothest and most durable tubes on the market. Expect quality with our Compound Tube and our Cam Lock Tube. Available sizes include 24”, 32”, 42” and 55”.

THE PHANTOM DDM SANDER

The Columbia Phantom Sander is a dustless sander head, pole and hose that connects to any vacuum with a standard 1.5” inlet.

The pole extends 26” to 46” and the hose is 30 feet long. The Phantom sands corners easily because of it’s shape and collects 99% of dust.

THE SANDER HEAD

The Columbia Sander Head incorporates all of the industry’s preferred functionalities in the first fully machined billet aluminum body. Utilizing our No Flip technology, our Sander Head flows smoothly on the wall.

Item No.	Description
PDDM	Phantom DDM Sander
CS	Columbia Sander Head
CSH	Columbia Sander Pole
TL-3-8	Twist Lock Handle w PHA

Uses the standard paint handle thread.

THE TOOL CASES

Columbia offers two storage cases for finishing tools. The Road Case measures 17”x9”x57” and is an extremely durable case built to endure the abuse of travel, and wear and tear of the jobsite. Ideal for the larger automatic tools, the Road Case features handles and wheels.

The Columbia Gun Case is 53.4” x 16.5” x 4.5” and fits a complete set of semi-automatic tools. The plastic case features eggshell foam support to ensure the tools remain in place.

Item No.	Description
TCS	Columbia Gun Case
RC	Columbia Road Case

The Gun Case is lightweight, but strong, and can protect a full set of semi-automatic tools.
